DEQ will work with WAG participants to complete a Subbasin Assessment (SBA) and metals TMDL (lead, zinc, cadmium) for Beaver Creek and Prichard Creek, and assist in project implementation planning for the existing North Fork sediment TMDL (approved by EPA in 2002). It is the intent of DEQ to have diverse representation from industries and interests affected by the management of the North Fork watershed.

Initially, it is anticipated that 2 hour meetings will be held once monthly, and then on a quarterly basis. Meetings will generally be held in the vicinity of the North Fork River.

1. What is your desired level of participation in the Watershed Advisory Group? Please check the most appropriate.

- ☐ I would like to participate in WAG meetings regarding the TMDL and implementation planning.
- ☐ Please keep me informed of the public comment opportunities, but I do not wish to commit to regular meeting attendance.
- ☐ I am not interested in this process. Please remove me from your mailing list.

2. How would you characterize your involvement in the watershed and who do you represent? Please check the most appropriate.
